Professional Summary

Data Science and AI student with a strong foundation in data analysis, machine learning, and Python. Experienced in working with real datasets, building analytical models, and creating data-driven insights. Passionate about applying machine learning techniques to solve real-world problems.

Technical Skills

- **Programming:** Python, SQL
- **Data Analysis:** Pandas, NumPy, Excel
- **Data Visualization:** Matplotlib, Seaborn, Power BI
- **Machine Learning:** Scikit-learn, Supervised & Unsupervised Learning
- **Databases:** MySQL
- **Tools:** Visual Studio, Colab, Jupyter Notebook

Experience

Data Analyst Intern

National Telecommunication Institute (NTI)

Jun 2025 – Jul 2025

- Worked on data cleaning, analysis, and visualization using Python and Excel.
- Analyzed datasets to extract insights and support decision-making.
- Built dashboards and reports to present analytical results.

Machine Learning & AI Trainee

EXCPRINCE Initiative – Route Egypt

2025

- Participated in Machine Learning and Artificial Intelligence training program.
- Completed core modules covering machine learning fundamentals and AI concepts.
- Applied supervised and unsupervised learning techniques using Python.
- Worked on data preprocessing, feature engineering, and model evaluation.
- Gained hands-on exposure to real-world datasets and practical ML workflows.

Projects

Sales Data Analysis Dashboard

- Analyzed sales data using Python and Excel to identify trends and KPIs.
- Built an interactive dashboard to visualize revenue and performance metrics.

Education

Bachelor of Data Science and Artificial Intelligence

University Name

2022 – Present

Certifications

- Advanced Data Analytics – NTI (120 Hours, Score: 99%)
- Getting Started with Deep Learning – NVIDIA

Languages

Arabic (Native)

English (Good)
